3PM**

**Dealing With Weather -
Related Emergencies**

**Watch vs Warning:
What's the Difference?**

Watch - When conditions are favorable for the development of severe weather including tornado, high winds or approaching hurricane, a watch is initiated. Staff will monitor weather alerts on TV, radio, and NOAA weather radio and prepare to take action when necessary.

Warning - When a watch is changed to a warning by the National Weather Service, staff must take immediate action.

Lightening and Thunderstorms -

- ◆ Remain calm. Be aware of your surroundings. Check weather forecasts before participating in outdoor activities.
- ◆ **"When thunder roars, go indoors"**. Go indoors where it is safe. Workers will assist to safety.
- ◆ Avoid contact with water.
- ◆ Stay away from windows.
- ◆ Avoid electronic equipment. Do *NOT* use your computers, laptops, or anything connected to an electrical outlet. Lightning can travel through electrical systems, radio and television reception systems.

THE DINING DISCUSSION

LET'S TALK

QUESTIONS? COMMENTS? CONCERNS?

BRING A FRIEND!

Thursday August 4th &
Thursday August 11th
2:00PM Main Dining Rm

welcome TO THE TEAM
