"We are all like snow flakes, different in our own beautiful way"

Snowflake Fun Facts

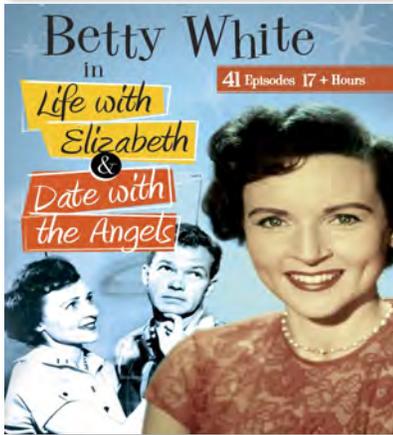

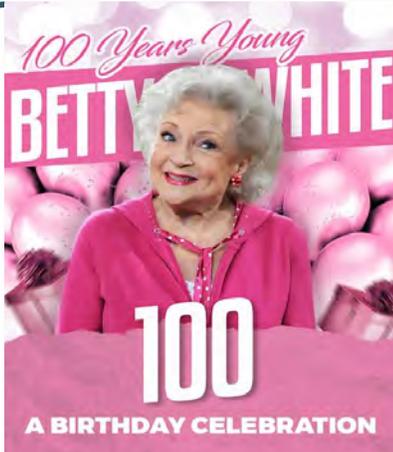

- The world's largest ever snowflake found to date was 38 centimeters wide and 20 centimeters thick! This snowflake occurred at Fort Keogh, Montana, USA on 28 January 1887.
- Each snowflake is made up of about 200 ice crystals.
- Snowflakes always have six sides.
- There is no scientific proof that no two snowflakes aren't exactly alike.
- On average snowflakes fall from the sky at 3-4 miles per hour.
- Close to 80% of the world's fresh water supply comes from snow and ice.
- Snow is not actually white but clear. Snow looks white because of the way the light reflects off of the ice crystals.
- Thundersnow is when it snows while there is thunder and lightning.
- Watermelon snow is snow with algae growing on it. The algae is a reddish color. It is mostly found in the Canadian Rockies.

the better you get.
Unless you're a banana"*
-Betty White

Martin Luther King

Jr. (born Michael King Jr.;

January 15, 1929 – April 4, 1968) was an American Baptist minister and activist who became the most visible spokesman and leader in the American civil rights movement from 1955 until his assassination in 1968.

King a advanced civil rights through nonviolence and civil disobedience, inspired by his Christian beliefs and the nonviolent activism of Mahatma Gandhi. He was the son of early civil rights activist and minister Martin Luther King Sr.

"If you can't fly then run, If you can't run then walk, If you can't walk then crawl, but whatever you do you have to keep moving forward"

-Martin Luther King Jr.
